**Feb 2020 – Jan 2023**  
**Hyderabad**

- Instrumentation engineers design, develop, install and maintain equipment to monitor and control machinery.
- They configure automated processes to improve the productivity, reliability and safety of production.
- They might build instruments like: Dynamo-meters for measuring torque.

### EDUCATION

#### Master of Science in Instrumentation

Sri Venkateswara University

**June 2017- July 2019**  
**Tirupati**

Control systems for outdoor equipment. System modules for automation technology.

Sensor technology and optoelectronics (e.g. control and alarm devices).

#### Bachelor of Science in Maths, Physics and Electrons

P V K N Govt College

**July 2014 - April 2017**  
**Chittoor**

Power, communication, control, signal processing, embedded systems, robotics.

## PROJECTS

### Human Resource Management System

- **Java:** The core programming language for developing the application logic and user interface.
- **JDBC:** The Java API for connecting and interacting with the database.
- **Relational Database Management System:** MySQL, PostgreSQL, or any other RDBMS for storing student-related data.
- **HTML, CSS and JavaScript:** For web-based components or web integration, if required.

### Ticket Booking System Sign Up

- Implemented secure user authentication and registration functionalities to ensure data privacy and access control.
- Developed an intuitive registration form allowing users to input essential details such as name, email, password and contact information.
- Utilized JDBC to establish a connection with the backend database, storing newly registered user information securely.
- Leveraged JSP to dynamically generate content, enhancing the overall registration experience.

### Resume Builder For Beginner

#### 1. User Registration and Login

- Create and manage user accounts.
- Secure authentication and session management.

#### 2. Profile Management

- User profile creation with basic information (name, contact details).
- Edit and update personal information.

#### 3. Template Selection

- Simple templates to choose from.
- Basic customization options (fonts, colors).

#### 4. Resume Sections

- Predefined sections: Work Experience, Education, Skills, Achievements.
- Add, edit, and delete entries within each section.

#### 5. Export Options

- Export resume as PDF.
- Basic export options (eg, one-click download).

#### 6. Real-Time Preview

- Display a live preview of the resume as it is being edited.

## ADDITIONAL INFORMATION

- **Languages:** English, Telugu, Kannada.
- **Certifications:** Java Full Stack Developer and Web Developer.
- **Awards/Activities:** Most Innovative Employer of the Year (2021)
